Monitoring Visit

1. Describe monitoring activities (walked all boundaries, accessed interior, viewed from the road only): visited the property with Ron Bogle. Also viewed on recent aerial photography from Spring 2018.
2. Were boundaries clearly marked and identifiable? Yes No
Notes: Boundary has been digitized in GIS and can be approximated in the field; many of the bounds are marked. In addition to the site visit, which was mostly limited to the road and beach, boundaries were also reviewed on high resolution aerial photographs taken in Spring 2018.
3. List and describe any observations of human alterations or management activity (construction, clearing, harvest, trails, etc.) that represent changes from the previous visit or from conditions recorded in the baseline document: Beach erosion is a major concern.

4. Are these activities permitted in the conservation easement or deed? Yes No
N/A

5. List and describe any other observations, needs, comments etc. that may be affecting the condition of this property: *None noted.*

6. To the best of your knowledge and observation, are the conservation values of this property being preserved and do all activities comply with existing restrictions (as referenced in the conservation easement, deed, etc.)? Yes No

If no, please describe: *No other observations of note.*

7. Please include any additional comments and reference any additional materials provided (photos, annotated maps, etc.) from the monitoring visit here:
Ron indicated interest in developing education signage for the beach property.
