Monitoring Visit

1. Describe monitoring activities (walked all boundaries, accessed interior, viewed from the road only): viewed the conservation area from the drive, Burchard Ave. and on recent aerial photography from Spring 2019. The entire area is open and readily visually accessible.
2. Were boundaries clearly marked and identifiable? Yes No
Notes: Boundary has been digitized in GIS and were reviewed on high resolution aerial photographs taken in Spring 2019.
3. List and describe any observations of human alterations or management activity (construction, clearing, harvest, trails, etc.) that represent changes from the previous visit or from conditions recorded in the baseline document: The conservation area is open field, divided into a series of paddocks, some of which are used for horses and the remainder for rotationally grazed livestock.

4. Are these activities permitted in the conservation easement or deed? Yes No

5. List and describe any other observations, needs, comments etc. that may be affecting the condition of this property: Overwinter sheep quarters have been improved with a new shed and drainage.

6. To the best of your knowledge and observation, are the conservation values of this property being preserved and do all activities comply with existing restrictions (as referenced in the conservation easement, deed, etc.)? Yes No

If no, please describe: It is unclear if prior permission for the livestock winter quarters improvements is required / was obtained in advance.

7. Please include any additional comments and reference any additional materials provided (photos, annotated maps, etc.) from the monitoring visit here:
See above. Follow-up with Adam Yorks may be needed.
