Monitoring Visit

1. Describe monitoring activities (walked all boundaries, accessed interior, viewed from the road only): walked all boundaries of the property while conducting site visit for BDR creation.
2. Were boundaries clearly marked and identifiable? Yes No
Notes: A recent survey plan was completed and all bounds were marked. Boundary was digitized in GIS from the survey plan and also reviewed on high resolution aerial photographs taken in Spring 2019.
3. List and describe any observations of human alterations or management activity (construction, clearing, harvest, trails, etc.) that represent changes from the previous visit or from conditions recorded in the baseline document: The remains of a structure are located in the wooded portion of the conservation area. See BDR completed 12/19 for complete description.

4. Are these activities permitted in the conservation easement or deed? Yes No

5. List and describe any other observations, needs, comments etc. that may be affecting the condition of this property: *The western-most portion of the conservation area has been planted in corn in recent years. An adequate winter cover crop was lacking during the site visit in November 2019.*

6. To the best of your knowledge and observation, are the conservation values of this property being preserved and do all activities comply with existing restrictions (as referenced in the conservation easement, deed, etc.)? Yes No

If no, please describe: *No other observations of note.*

7. Please include any additional comments and reference any additional materials provided (photos, annotated maps, etc.) from the monitoring visit here:

None
